MC+ Managed Care in Missouri

MC+ Managed Care

MC+ is the statewide medical assistance program for low-income families, pregnant women, children and uninsured parents. MC+ recipients get their care through either Fee-for-Service (FFS) or managed care depending on where the person lives in Missouri. MC+ managed care is in 37 Missouri counties. MC+ managed care members must choose a health plan and a primary care provider (PCP). A PCP directs a member's health care. The PCP will refer the member to other health care providers when needed. There are some services not in MC+ managed care that are covered by MC+ FFS.

Statewide Averages and Quality of Care Symbols Explained

The percent on the “Statewide Averages” line indicate the average percent of all plans for each indicator shown in the header of the column. The Quality of Care Ratings reflect a statistical comparison of the plan’s percentage on the indicator (measure) and the statewide average percentage for all plans. An Average (●) rating for a specific plan means the plan scored close to the Statewide Average for that indicator. A High (●) or Low (○) rating means the plan scored much higher or much lower than the Statewide Average.
